## THE SPIRIT OF THE ROSE

*Claire Virginia Townsend*

O radiant Spirit of Beauty,  
 O child of the dawn and the dew,  
 Fair spirit, aglow with Life's promise,  
 Pink rose, 'tis the spirit of you.

O spirit of Courage, undaunted,  
 A courage no fate can subdue,  
 Brave spirit, unbowed in Life's conflict,  
 Red rose, 'tis the spirit of you.

O Spirit of Love's golden glory,  
 That makes the whole world shine anew,  
 O sunshine of Life, ever glowing,  
 Golden rose, 'tis the spirit of you.

O Spirit of Comfort in sorrow,  
 When grief hides God's mercy from view,  
 Pure spirit, whose wings carry healing,  
 White rose, 'tis the spirit of you.

We gather them all in Life's garlënd,  
 Each rose to its own perfect hue,  
 Love, Comfort, and Beauty and Courage,  
 O Rose Spirit, all are in YOU.

*One of the many pleasures derived in growing roses is our contact with rose friends. We wish we might thank you all personally for your patronage, however, we hope our roses have thanked you for us by their lovely blooms and will continue to do so for years to come. Anytime we may be of assistance to you, it will be our pleasure.*

## ROSES

It is our desire, in this booklet, to present you with something interesting and helpful in brushing aside the trials and realities that confront the world today.

An earnest endeavor has been made to give you an accurate description of the roses. Our description is as we see them modified with reports from other sections of the country. Roses do vary in different soils and climates, often performing quite differently within short distances.

Please note that nearly all hybrid tea roses today are everblooming and unless otherwise noted, the varieties listed are comparatively disease resistant. All plants listed are grown on Odorata root or otherwise designated.

The stock this year is excellent. Every plant is guaranteed to reach you in perfect condition, to be true to name and grade and to grow if given proper care. Should any be found to be otherwise, they will be replaced or money refunded. We shall consider it a favor if you will notify us of any failures you may have had with our stock in the past.

The prices quoted are for strictly number one grade, two-year-old field grown stock, graded to comply with the California Grades and Standards Law.

**DISCOUNTS**—When purchasing in lots of 10 to 25, deduct 10 per cent; 26 or more, deduct 20 per cent, except on patented roses.

**PACKING AND MAILING**—There will be no packing or mailing charge on orders of one dollar or more in California. On orders less than one dollar, add 25 cents. On orders outside the state, please add 10 per cent to cover packing and Parcel Post.

**ROSE SHIPMENTS TO OUR EASTERN PATRONS**—As we do not dig our roses early enough for your fall planting, we advise placing your orders early that they may be placed in cold storage until your spring planting time, at no extra charge to you.

**CALIFORNIA SALES TAX**—Please add 3 per cent to purchase price. This does not apply to purchasers outside the state.

The American Rose Society invites you to become a member if you are interested in rose growing. The Rose Annual and Quarterly magazines are filled with interest and information. We are members and shall be glad to send you an application blank. Or write American Rose Society, Box 687, Harrisburg, Pa.

## PATENTED ROSES

These patent varieties of roses are being handled under license from patent owners. We are not permitted to allow any further discount.

**AMBASSADOR (Premier Rose Co. 1930)      \$ .75; 3 for \$1.90\***

A sport of Talisman that is a great favorite. A bud with the same form as Talisman but having a uniform bronzy-salmon color. Foliage and type of growth same as Talisman. A profuse bloomer and fragrant. Excellent as a cut flower. Plant Patent No. 11.

**ANGELS MATEU (Pedro Dot 1934)      \$1.00; 3 for \$2.50\***

Angels Mateu is still in the very select class and is becoming even more popular. Having Duchess of Penaranda as one of its parents gives it a good send off. The large double blooms are deep old rose lightly flushed with orange and with a ripe blackberry fragrance. Plant is an upright bushy grower with excellent foliage. Plant Patent No. 174, Conard-Pyle Co.

\*No further discount allowed.

**BOUTONNIERE (W. E. Lammerts 1940) \$1.25 each; 3 for \$3.15\***

This is an excellent little rose for the button hole or for small arrangements. It is so generous with its bloom that you can usually pick blooms from this bushy plant which is well clothed with glossy leathery, disease resistant foliage. The perfectly formed buds are orange apricot and fragrant. A double rose. Plant Patent No. 454.

**CHARLOTTE ARMSTRONG (W. E. Lammerts 1940) \$1.50 each; 3 for \$3.75\***

Charlotte Armstrong has established itself as one of the finest roses ever introduced. It is a strong grower, produces excellent blooms and is most generous with them. The blood red buds are exceptionally long, pointed and open to large roses which vary in color from blood red to a very deep pink according to weather conditions. A spreading grower with good foliage. Fragrant and good as a cutting rose. Patent No. 455. Judged the **best** new rose in America for 1940.

**CONTRAST (Howard & Smith 1937) \$1.00; 3 for \$2.50\***

Here is a very attractive rose that is quite different. One side of the petals is China pink and bronze and the reverse side white and bronze. The flowers have nice form, are double and are produced on long stems. The type of growth and foliage is similar to Talisman. Patent rights reserved.

**CRIMSON GLORY (Kordes 1935) \$1.00; 3 for \$2.50\***

For the past few years this rose has been acclaimed the finest new red rose in America. Of perfect form, the large double cupped flower is a deep velvety crimson and intensely fragrant. The plant is a vigorous, bushy grower and a continuous bloomer. Plant Patent No. 105.

**DICKSON'S RED (Dickson 1939) \$1.00 each; 3 for \$2.50\***

Here is a new red that has been welcomed into the fold by many rosarians. They admire its rich color, its form, lasting qualities and fragrance. It produces a good bush with nice foliage and continuous blooms. Plant Pat. No. 375.

**ECLIPSE (J. H. Nicolas 1935) \$1.00; 3 for \$2.50\***

This is unquestionably one of the finest yellow roses in America. Streamlined buds of rich gold are enhanced by ornamental sepals. A tall grower with dark green foliage. An excellent cut flower with long stems. A prolific bloomer. Plant Patent No. 172.

**ETERNAL YOUTH (Aicardi 1938) \$1.25; 3 for \$3.15\***

Eternal Youth produces the perfectly formed buds so much desired by Rosarians. Both the buds and double blooms are a clear soft pink with a trace of salmon at the base of the petals. Fragrant. A vigorous, bushy grower and profuse bloomer. Plant Patent No. 332.

**GLOAMING (J. H. Nicolas 1935) \$1.00; 3 for \$2.50\***

A cut flower variety which has proven a "winner" wherever grown. Its long buds are carried on long rigid stems amply clothed with handsome foliage. The plant is vigorous, branching, and fairly tall growing. Bloom is of unusual coloring—fawn orange in the bud and the large full blooms are of a peculiar pink overlaid with salmon. Plant Patent No. 137.

\*No further discount allowed.

**GOLDEN STATE (Meilland 1937) \$1.00; 3 for \$2.50\***

This golden yellow rose was selected as the official rose of the Golden State International Exposition. The bloom is very double and fragrant. Plant is a tall bushy grower with dark leathery foliage. Patent No. 303.

**GOOD NEWS (Meilland 1940) \$1.50 each; 3 for \$3.75\***

As our experience with this rose has been limited, here is the introducer's description; a glorious 50-petaled fragrant rose with artistically crimped petals that stand up and hide the center of the rose. The bloom opens peach pink and finishes silver pink. Plant is a vigorous grower, full foliaged and a continuous bloomer. Plant Patent No. 426.

**HECTOR DEANE (McGredy 1938) \$1.25 each; 3 for \$3.15\***

If you are looking for fragrance, Hector Deane will give it to you. The ovoid crimson buds open to semi-double flowers of crimson with a suggestion of orange. Plant is a medium grower with fair foliage. Plant Patent No. 361.

**LUIS BRINAS (P. Dot 1934) \$1.00; 3 for \$2.50\***

This Spanish rose was awarded the Gold medal at Portland Test Garden in 1935 and is one of the finest roses in the Northwest as well as in the cooler sections of California. The fine pointed buds of orange copper open to a full double, high centered flower of soft old rose, flushed gold. The plant is a very vigorous, upright grower (4 ft.) with thick, leathery, disease resistant foliage. A prolific bloomer and fragrant. Plant Patent No. 102.

**MAJOR SHELLEY (Howard & Smith 1937) \$1.50; 3 for \$3.75\***

This rose looks promising. Its rich crimson scarlet bloom has been most attractive. The bud is large, long pointed and is produced on a long stem. The bush is a strong grower with large leathery dark green disease resistant foliage. Patent applied for.

**McGREDDY'S SALMON (McGredy 1940) \$1.50 each; 3 for \$3.75\***

Another good rose from the McGredy family. This double fragrant rose is apricot pink; buds are pointed, freely produced on strong stems. The plant is a bushy grower with dark green foliage. Plant patent No. 410.

**McGREDDY'S SUNSET (McGredy 1936) \$1.25; 3 for \$3.15\***

This rose is very appropriately named! It is a high centered, double rose having a combination of light yellow, deep chrome yellow and scarlet. The plant is a vigorous grower with bronzy green foliage. A prolific bloomer and fragrant. It grows to perfection in a cool climate. (Ragged Robin root.) Plant Patent No. 317.

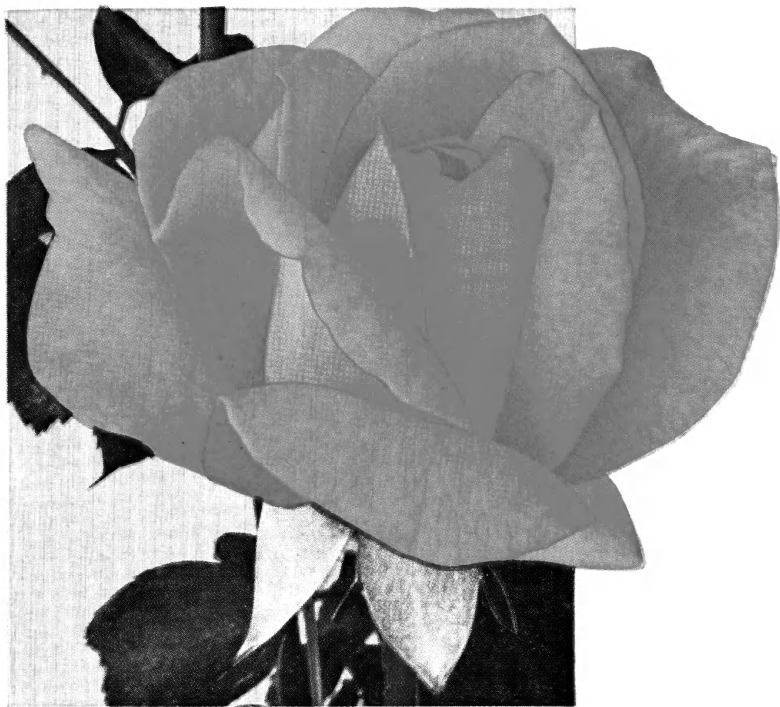

**MME. CHAS. MALLERIN (Chas. Mallerin 1940) \$1.50; 3 for \$3.75\***

This new rose is a most handsome one in cool climate, but the deep orange salmon color will fade in very hot weather. The bloom has thirty or more petals and is produced on a strong stem. The plant is a medium grower with large disease-resistant foliage. Patent No. 409.

**MME. COCHET-COCHET (C. Mallerin 1934) \$1.00; 3 for \$2.50\***

This lovely rose from France is named in honor of the famous Cochet family. The long pointed buds are coppery pink flushed with orange and open to large flowers of the same color. Although the flowers have only about twenty petals, they are very attractive in the open stage. Moderately fragrant. Plants are tall with good foliage. Plant Patent No. 129. Recommended for cool climate.

\*No further discount allowed.

THE CHIEF  
(Plant Patent No. 456)

**MME. HENRI GUILLOT (Mallerin)**

**\$1.25; 3 for \$3.15\***

This rose is proclaimed throughout the country as one of the best in cultivation today. The buds are long and pointed and of a clear orange, coral and red with gold at the base of the petals. The opening buds are urn shaped and the open flower camellia shaped. The petals have an exceptionally heavy velvety texture. The plant is one of the best found in roses with heavy dark green leathery foliage from the ground to the neck of the bloom. Very floriferous. Plant Patent No. 337, Conard-Pyle Co.

**MME. JEAN GAUJARD (Gaujard 1934) \$1.50 each; 3 for \$3.75\***

This rose looks promising in the year we have had it. The bud is long and pointed, opening to a double rose of light carmine buff on the outside of the petals and yellow buff on the inside. The plant is a vigorously upright grower with nice foliage. Plant Patent No. 338.

**M. S. HERSHEY (Coddington 1940) \$1.50 each; 3 for \$3.75\***

Another new crimson scarlet rose which is highly thought of in the East, but which we have not had long enough to judge. However, we have had some lovely blooms of it. It looks promising. Plant is an upright grower with dark green foliage. Plant Patent No. 427.

\*No further discount allowed.

RAMON BACH  
(Plant Patent No. 366, Conard-Pyle Co.)

**RADIO (Pedro Dot 1937)**

**\$1.00; 3 for \$2.50\***

Radio is a sport of the well known Countess of Sagato. Form, foliage, habit of growth are the same. The color is unique in that it is a soft yellow with the petals slightly tinted pink with carmine stripes and markings. Fragrant. A novelty for the garden. Plant Patent No. 197.

**RAMON BACH (Pedro Dot 1938)**

**\$1.00; 3 for \$2.50\***

From reports of this rose in the American Rose Annual, Ramon Bach is well received throughout the country. The large very double bloom with its spiral center is a bright orange, with a reverse of a reddish gold. This rose has fine substance and is borne on long firm stems. Plant is a vigorous upright grower with excellent foliage. Fragrant. Plant Patent No. 366, Conard-Pyle Co.

\*No further discount allowed.

**REX ANDERSON (McGredy 1937)****\$1.25; 3 for \$3.15\***

Handsome long, pointed large buds of cream turning to pure white with age and are borne several together on medium stems. A very strong grower and prolific bloomer. Thick leathery foliage that is fairly free of disease. An excellent white. Fragrant. Plant Patent No. 335.

**ROCHEFORT (Mallerin 1936)****\$1.00; 3 for \$2.50\***

A very double rose of orange and old rose; a clear color with no shadings. Very fragrant. Plant is a tall grower with fine glossy dark green foliage, quite resistant to disease. Both plant and bloom are very clean looking. Plant Patent No. 191.

**SATURNIA (Aicardi 1934)****\$1.00; 3 for \$2.50\***

For brilliancy of color, Saturnia should satisfy the critic. The large beautifully formed semi-double flowers are a brilliant cardinal red with a reverse of salmon, yellow and copper, a most striking combination. Plant is a vigorous grower with dark green leathery foliage. Plant Patent No. 349.

**SIGNORA (Aicardi 1934)****\$1.00; 3 for \$2.50\***

This rose from Italy is a real masterpiece, in both plant and bloom. Long bud of a warm burnt sienna opening to a lighter hue toward mandarin. The plant is a tall grower (4 ft.) with every bloom on a long, strong stem. Foliage is handsome. (Colle Oppio Gold Medal 1935.) Plant Patent No. 201.

**TEXAS CENTENNIAL****(Dixie Rose Co. 1935)****\$ .60; 3 for \$1.50\***

Texas Centennial is a sport of the popular rose President Hoover. Type of growth is the same although it appears to have more and better foliage. Quite prolific in bloom. Flowers are a brick red, having a faint tinge of gold, with a lighter center. This rose has shown up very well. A splendid exhibition rose. Plant Patent No. 162.

**THE CHIEF (Dr. Lammerts 1940)****\$1.00; 3 for \$2.50\***

We are very enthusiastic about this rose for several reasons. The very long pointed buds almost always come singly on a strong stem. The color in bud form is from deep rose to flame, opening to a very large flower of flame, coral and copper. Very fragrant. The plant is a vigorous spreading grower and very disease resistant. Patent No. 456.

**WARAWEE (Mrs. H. C. Fitzhardinge)****\$1.00; 3 for \$2.50\***

A beautiful long pointed bud of flesh pink shaded rose. Flower is large and very double. Fragrant. Plant is a vigorous upright grower with glossy foliage. Plant Patent No. 140.

**WORLD'S FAIR (Kordes 1938)****\$1.00; 3 for \$2.50\***

A large flowering semi-double deep crimson rose borne in medium size clusters. Makes a most impressive sight. Plant is upright in growth with large leathery foliage. Mildews in some locations. Plant Patent No. 262.

**ZULU QUEEN (Kordes 1939)****\$1.25 each; 3 for \$3.15\***

When Zulu Queen is at its best, there are few red roses that compare with it. The color is a very deep red with black shadings. The rose has fine form and is fragrant. The plant, however, is nothing to shout about, only a medium grower with fair foliage.

\*No further discount allowed.

## NEW CLIMBING ROSES

### **FLASH (Hatton 1938)**

**\$1.00; 3 for \$2.70\***

If you are looking for a climbing rose that is just a "knock out" for color, then try Flash. It is the most spectacular rose we know of. The blooms are semi-double, about four inches across, of a vivid orange scarlet with golden yellow stamens. A very good intermittent bloomer with excellent heavy foliage. Patent No. 396.

### **CLG. HINRICH GAEDE**

**\$1.00 each; 3 for \$2.50\***

A sport of the well known bush rose. Not a strong climber, probably about eight feet. A continuous bloomer. Patent No. 244.

### **INDIAN SUMMER (Howard & Smith 1937) \$1.50; 3 for \$3.75\***

Here is a climber that has some of the finest foliage we have seen. It is a strong climber and a consistent bloomer. The bud is long, pointed and in shades reminding one of Autumn, burnt orange streaked with red. This climber looks well worth while. Patent applied for.

### **CLG. MRS. SAM MCGREDY**

**\$1.00 each; 3 for \$2.50\***

We unhesitatingly recommend this climber as one of the finest in commerce. Foliage and blooms are even better than the bush variety. The large double coppery pink blooms are produced throughout the season. A strong grower. Plant Patent No. 394.

### **MRS. PAUL J. HOWARD (Howard & Smith 1937)**

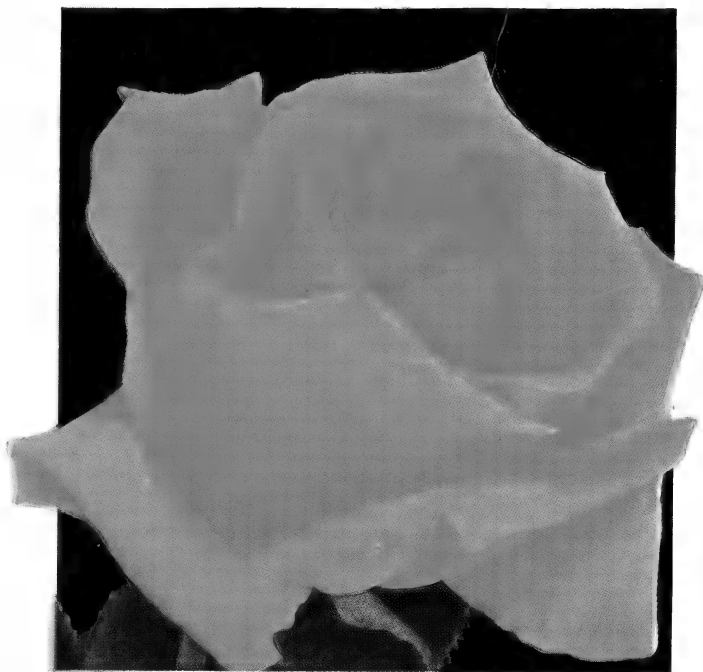

**\$1.50 each; 3 for \$3.75\***

Here is a very fine rich crimson climber, with long pointed buds with a lovely fragrance. The plant is a moderate climber, more pillar type. Nice foliage. A continuous bloomer. Patent applied for.

### **RUTH ALEXANDER (Rena Wilber 1936)**

**\$1.25; 3 for \$3.15\***

The color of the beautiful buds is all we said of it before, but we did find the buds open quickly. The buds are long and pointed and of cadmium orange, topped with peach red. The sepals hold tightly to the petals, which adds greatly to its beauty. In the open flower the color is a soft orange with brick red stamens. The foliage is just as lovely as the flower, a deep green and as glossy as though it had been varnished. A very strong grower. An excellent cut flower. Patent No. 178. Blooms usually twice. Recommended for cool climate.

McGREDY'S SUNSET (Plant Patent No. 317)

## CHOICE ROSES

Selected varieties both new and old. New roses not listed with the patent roses are underscored.

### ANGELE PERNET

**\$ .60**

This rose is still the best of its type and color. A beautiful orange yellow shaded deep reddish-apricot. The flower has a fine form, semi-double and is borne on strong stiff stems. A fine cut flower and fragrant. Bush is a moderate grower with clean glossy foliage that is very free of disease. Will not stand heavy pruning.

### AUSTRIAN COPPER

**\$ .60**

One of the oldest roses in commerce today; used as a shrub. The small single blooms are brilliant coppery red on the outside with yellow on the reverse. Spring bloomer.

### AUTUMN (Coddington 1928)

**\$ .60**

An unusual combination of deep burnt orange and pink streaked with red. Moderately fragrant and very lasting. The bush is a strong upright grower with an abundance of thick glossy foliage. Mildews in some locations. Excellent in coastal regions.

**CATALONIA (Pedro Dot) \$ .60**

Those who enjoy a splash of Spanish colors will find all they are looking for in Catalonia. The bud is large, ovoid, opening to a very double flower of bright scarlet shaded orange. The plant is a vigorous bushy grower and prolific bloomer. Excellent as a vivid bedding rose.

**CECIL \$ .60**

The best single yellow rose. Buds are golden yellow and produced profusely on a bushy plant well clothed with glossy green foliage.

**CHAS. P. KILHAM (Beckwith 1926) \$ .60**

A most perfectly formed long pointed bud of rich oriental red suffused with red and orange, and opening to a double, high centered flower of the same shade. A vigorous spreading grower with excellent foliage.

**CHRISTOPHER STONE (Robinson 1935) \$ .75**

From all over the world come excellent reports of this lovely red rose. In our field this rose has been outstanding. The bud is long pointed, opening to a large double flower of vivid scarlet with a velvety crimson sheen. The plant is a bushy yet upright grower, about 2½ ft., with fine bronzy green foliage that has mildewed slightly. A very prolific bloomer and fragrant.

**CYNTHIA (Verschuren-Pectold 1933) \$ .60**

The bloom of Cynthia reminds one of an improved Chas. P. Kilham. The long pointed buds open to a splendid flower of rich Oriental red. Very fine as a cut flower and a prolific bloomer. The bush is a vigorous medium height grower (3 ft.) with heavy dark green foliage.

**DAINTY BESS \$ .60**

Considered by many to be the best single rose. A medium size flower with crinkled and wavy petals of a soft rose pink. The bright crimson stamens make a very pleasing contrast. A good cut flower if cut in bud. A vigorous upright grower and prolific bloomer.

**DIANE DE BROGILE (C. Chambard 1929) \$ .60**

One of our most beautiful roses. A medium size, pointed bud opening to a double, moderately fragrant flower of a beautiful shade of coral apricot with no other shadings. A vigorous upright grower with large glossy disease resistant foliage.

**DICKSON'S PERFECTION (Dickson 1937) \$ .60**

A medium size rose of shrimp pink overlaid with madder and merging to orange yellow. Buds ovoid and double. Plant medium grower with glossy foliage.

**DR. KIRK (Mallerin 1940) \$1.25**

Here is a very vividly colored rose, burnished flame scarlet. The long pointed buds are deep carmine scarlet opening to a large fragrant flower of burnished flame scarlet. Plant is a tall upright grower with good foliage, although not in abundance.

**DUCHESS OF ATHOLL (Dobbie 1928) \$ .60**

A most attractive rose in bud, but quickly opens. A medium size, ovoid bud of deep bronze opening to a large, cupped, fragrant flower of golden bronze flushed with pink. A vigorous spreading grower with clean, glossy, disease resistant foliage.

**DUCHESS OF PENARANDA (P. Dot 1931) \$ .60**

Duchess of Penaranda offers two distinct shades to its admirers. In the spring and summer the large pointed buds open to a large, double flower of coppery apricot and sometimes showing a dark pink cast. In the fall, the color is deeper and shows more of the bronzy shades. Regardless of when you see it the bloom is exquisite. Quite fragrant. Not alone is the flower beautiful, as the foliage is just as lovely and very free of disease. The bush is a very strong, upright grower and a prolific bloomer. Excellent in all localities.

**EDITH MARY MEE (Oliver Mee 1936) \$1.00**

Here is a variety that gives you a continuous splash of color. The double fragrant flowers are a rich oriental red flushed with orange and yellow at the base. The bush is a vigorous, bushy grower with healthy, dark green foliage.

**E. G. HILL (Hill 1929) \$ .60**

A very large rose of dazzling scarlet shading to a deeper red. Very double and exceedingly fragrant. Excellent as a cut flower. A moderate grower and free bloomer.

**EMPRESS (Chaplin 1933) \$ .60**

A beautifully formed exhibition type double flower of bright rose pink, borne singly on a long strong stem. A vigorous, upright grower (4 ft.) with dark leathery foliage. Foliage not abundant, which sometimes gives the plant a 'leggy appearance. Awarded Clay cup for fragrance. Excellent cut flower.

**ETOILE DE HOLLAND \$ .60**

By far the best of the better known red roses. A beautiful dark, velvety red that seldom blues. Very fragrant and excellent as a cut flower. Growth sometimes rather slow the first year, after that a vigorous grower with an abundance of disease resistant foliage. A prolific bloomer.

**FAIENCE (Van Rossem 1935) \$ .75**

In Faience we have a rose with a different color combination than in any other rose. It is a two tone of soft peach and cadmium yellow. The bud is beautifully formed, long and tapering and is cadmium yellow at the base and gradually fades to shrimp pink at the edge of the petals. In the open flower the outer side of the petals is cadmium yellow while the inside of the outer petals is China pink deepening to coppery rose in the center of the rose. A good grower, 3 to 4 feet, with large clean foliage. A continuous bloomer.

**FEDERICO CASAS (Pedro Dot 1931) \$ .60**

Another of Pedro Dot's roses carrying the brilliant flashy colors of Spain. The beautiful reddish-orange buds open to a semi-double flower of coppery pink with considerable yellow in the center. A tall strong grower with excellent foliage. Fine as a cut flower; fragrant. Excellent in all sections.

**FEU JOSEPH LOOYMANS \$ .60**

Another fine rose. A long pointed bud that opens to a beautiful flower of orange apricot. The plant is a vigorous bushy grower with glossy, disease resistant foliage. A prolific bloomer.

**FLOREX \$ .50**

This bright salmon pink is a desirable garden variety. It has a long pointed bud with thick leathery petals. An excellent cut flower and fragrant. Bush is a tall upright grower with large firm leaves that are disease resistant. A free bloomer.

**FRANCES ASHTON (Dr. De Puy 1937)**

**\$ .75**

This new single rose originated by Dr. De Puy of Tacoma, Washington, is worthy of a place in every rose garden. It is distinctly different from any other single rose in that it is of uniform carmine color with wine colored stamens. The plant is tall growing with fine clean foliage. Very floriferous.

**FREIA (M. Tantau 1936)**

**\$1.00**

Here is a fine deep yellow with orange cast at the base of the petals. Bud is long and pointed, flower large. The bush has excellent glossy, leathery, disease resistant foliage. A good grower and consistent bloomer.

**GAIETY**

**\$ .60**

A rose with the same parentage as Talisman, but quite different. Blooms are quite large and double. The color is orange, Indian red and silver. A vigorous growing plant with glossy disease resistant foliage and few thorns.

**GIRONA (Pedro Dot 1939)**

**\$1.00**

The more we see of this rose, the better we like it. The buds are long, pointed, of fine form, and are turkey red and golden yellow, a most pleasing combination. Very fragrant. The plant is a very strong upright grower, with long sturdy stems similar to Pres. Hoover. Disease resistant. Excellent.

**GOLDEN DAWN (Grant 1929)**

**\$ .60**

An Australian rose that has proven a success in this country. A sweetly scented, very double flower of rich sunflower yellow passing to lemon yellow with age. The bush is a very vigorous, bushy grower with an abundance of large, clean, disease resistant foliage. Fine as a cut flower.

**GOLDEN EMBLEM**

**\$ .60**

One of the best yellow roses in most sections of California. Rich golden yellow, heavily splashed with red. Splendid thick glossy foliage. A strong grower but will not stand heavy pruning. An excellent exhibition rose but subject to die-back. Advisable to paint cuts of any size with wax or tree heal.

**GOLDEN RAPTURE**

**\$ .60**

Tone of pure canary yellow. Best in spring and fall, as summer bloom turns nearly white. Bud double and beautifully formed. A vigorous grower (3 ft.) with dark leathery foliage which is quite free of disease.

**GOLDEN WEST (Stocking 1937)**

**\$ .60**

This rose is recommended as a bedding rose to produce an abundance of color in the garden. It is an unfading golden yellow with glossy, disease resistant foliage.

**GOTHA (M. Krause 1932)**

**\$1.00**

Gotha has been much admired in our test garden this year. The flower is of medium size, double, and of a brownish yellow apricot. Stems are strong; plant is a vigorous grower with excellent foliage. Fragrant.

**GROOTENDORST (Pink)**

**\$ .60**

A rugosa rose used for hedges or as a shrub. A strong growing bush with thick crinkly foliage that does not mildew. The flower resembles a carnation in form but smaller. Color a bright pink. May be pruned in formal shape.

MME. HENRI GUILLOT (Plant Patent No. 337, Conard-Pyle Co.)

### **GRUSS AN COBURG (Felburg 1927)**

**\$ .60**

A very attractive medium size flower of apricot yellow and extremely fragrant. It is a vigorous upright grower with disease resistant foliage. Does well in a shady location.

### **HINRICH GAEDE (Kordes 1932)**

**\$ .60**

The bud is a clear nasturtium red opening to a large very double flower of orange red. A most prolific bloomer; bush is a vigorous grower with glossy bronzy green foliage. Fragrant.

### **INNOCENCE**

**\$ .60**

Large semi-single white with golden yellow stamens. Bush a moderate grower with dark green, disease resistant foliage. The best white of its type.

### **ISOBEL**

**\$ .60**

A strong growing bush bearing a profusion of long pointed buds that open to large flowers of carmine red shaded yellow. Considered one of the best of the singles. Tall grower.

### **J. OTTO THILOW**

**\$ .60**

This is one of the finest, most perfectly formed pink roses. The flower is large, double, high centered and of a glowing rose pink. A constant bloomer. Growth is vigorous and with an abundance of thick leathery foliage. An exhibition rose.

### **KATHLEEN MILLS (LeGrice 1934)**

**\$1.00**

The best description we can give of this rose is to call it a ten-petal Dainty Bess. It has the same soft rose pink color, but better substance to the petals. Growth and foliage is quite similar to Dainty Bess. We like it very much.

## KOROVO

\$ .75

We are convinced that Korovo is worthy of a place in your garden. Its color is old rose, shaded peach. The buds have beautiful form and are delightfully fragrant. The plant is an excellent grower with fine disease resistant foliage and a continuous bloomer.

## LADY FORTEVIOT

\$ .60

A rose similar in form to Angele Pernet. It is a golden yellow changing to deep apricot and having a very pleasing fragrance. A vigorous, bushy grower with glossy, bronzy-green foliage and a continuous bloomer. Excellent in nearly all sections, but particularly recommended for coastal climate.

## LOUISE C. BRESLAU

\$ .60

A large, very double rose of coral red shaded apricot, borne on strong stiff stems. Heavy leathery, glossy foliage. A fine cut flower, moderately fragrant and floriferous.

## LUCIA ZULOAGA (P. Dot 1934)

\$ .60

Lucia Zuloaga offers a color different from any other rose. It is a deep brownish scarlet with a golden undertone. While it has but from fifteen to twenty petals, it is very attractive both in the bud and open flower; very prolific in its bloom. The plant is a vigorous spreading grower (2 ft.) with perfect glossy green foliage that has been absolutely free of disease.

## McGREDY'S IVORY (McGredy 1929)

\$ .60

The buds are long and pointed, opening to a perfectly formed flower of creamy white with a light yellow at the base of the petals. The bush is a strong grower with excellent foliage. A prolific bloomer. Excellent as a cut flower and for exhibition. Mildews in some localities

## McGREDY'S YELLOW (McGredy 1934)

\$ .75

A really fine rose and a very prolific grower and bloomer. Flowers are large and of a bright buttercup yellow of good form. Foliage glossy dark green with deep reddish green stems. This is truly one of our finest yellows.

## MME. JOSEPH PERRAUD (J. Gaujard 1934)

\$ .75

In 1934 this rose was judged the most beautiful rose of France. The long, slender, pointed buds of nasturtium orange open to double fragrant flowers of nasturtium-buff with shell pink at the edge of the petals. A strong, upright grower and free bloomer. Foliage mildews in some localities. An exhibition rose.

## MOSS ROSE (Pink)

\$ .75

The old fashioned true pink moss.

## MOSS ROSE (Red)

\$ .75

Deep crimson flowers with calyx heavily mossed.

## MOSS ROSE (White)

\$ .75

Pure white flowers with calyx heavily mossed. All Moss roses bloom but once and need very little pruning.

## LITTLE GEM

\$ .75

Red Moss. A low grower.

## STRIPED MOSS

\$ .75

Creamy white with cerise stripes.

**MRS. E. P. THOM****\$ .60**

Probably one of the best clear yellow roses for most sections of the west. A medium size, moderately fragrant rose of deep canary yellow with no other shadings. A strong bushy grower with glossy foliage. An exceedingly prolific bloomer.

**MRS. EDWARD LAXTON (Laxton Bros. 1935)****\$1.00**

Although this rose has been out for some time, it is just now becoming known. The large ovoid bud opens to a large, very double high centered flower of orange and old rose. An excellent cut flower with fine strong stems. Plant is a vigorous upright grower with heavy, dark green disease resistant foliage. Fragrant.

**MRS. PIERRE S. DU PONT (Mallerin 1929)****\$ .60**

For color and form, this rose is among the best. It won the Bagatelle prize in Paris for the best yellow rose. The bud is of medium size, pointed, and of a beautiful reddish gold opening to a semi-double, very fragrant flower of deep golden yellow. A strong growing plant with an abundance of disease resistant foliage. The most prolific bloomer of all the yellow roses. Highly recommended.

**MRS. SAM MCGREDY (McGredy 1929)****\$ .75**

This rose is probably the best of the roses that this famous hybridizer has produced, and one of the best garden roses in commerce. It has a wonderful combination of colors, scarlet, orange heavily flushed with Lincoln red on outside of petals. Buds are large and long pointed, flowers double, fragrant and very lasting. The bush is a medium grower with abundant glossy foliage; young foliage a dark reddish green. A prolific bloomer.

**PICTURE (McGredy 1932)****\$ .75**

What a picture it is! Every rose seems to be perfectly formed. It is a medium size double flower with a perfectly formed high pointed center, with outer petals reflexed and unusually lasting. The color is a warm, cheerful lasting, velvety rose pink, with an undertone of salmon. Tea fragrance. The plant is a vigorous medium grower with fine thick dark green, disease resistant foliage. An abundant bloomer.

**PINK DAWN (Howard & Smith 1935)****\$ .75**

For those who like the long pointed buds, Pink Dawn is sure to appeal. The buds are of a deep rose pink with an orange tone. The rose is very double with splendid lasting qualities and is unusually fragrant. The stems are long and of medium strength. The plant is a vigorous upright grower and a profuse bloomer. Mildews slightly in this locality.

**POINSETTIA (Howard & Smith 1938)****\$1.00**

The buds are high centered, well shaped of a brilliant, dazzling red, opening to large double flowers with such a brilliant velvety texture that the flower glows. The plant is a tall grower with fair foliage. Excellent as a cut flower.

**PORTADOWN FRAGRANCE (McGredy 1931)****\$ .60**

And what a fragrance! A very double flower of orange-salmon pink with a silver sheen. A low spreading bushy grower with thick bronzy foliage. A profuse bloomer. Winner of the Clay Cup for fragrance. Best in warm climates.

**PRES. COCHET COCHET (Mallerin 1939) \$ .75**

A new red rose that looks promising. The bud is very large, long and ovoid, opening to a double rose of deep garnet red. Slightly fragrant. This rose has fine substance and is borne on long firm stems. Plant is a very vigorous upright grower with nice foliage.

**PRESIDENT HERBERT HOOVER (Coddington 1930) \$ .60**

It has a long pointed bud of orange scarlet opening to a very large flower of orange and pink. As the flower ages the bright colors fade to a creamy pink. The petals of this rose have such wonderful substance that it is an unusually fine cut flower. A very strong upright grower. Mildews slightly.

**PRES. MACIA \$ .60**

A lovely large double two toned pink rose. The inside of the petals is a flesh white, while the outside is veined and suffused with a rich mauve rose. Plant is a very strong grower and a profuse bloomer. Prefers warm weather.

**PRESIDENT PLUMCOCQ (Gaujard 1931) \$ .60**

A medium size, ovoid bud opening to a large, double, cupped flower of soft coppery buff. Bush is a strong upright grower with healthy foliage. A profuse bloomer and fragrant. An excellent rose.

**RAPTURE \$ .60**

The best of the Ophelia family. A long pointed bud of pink shaded apricot. A strong grower and fragrant.

**RED TALISMAN \$ .60**

This is a red sport of Talisman that originated in our field. Growth and foliage same as Talisman. Color a deep maroon red, fading to a lighter shade in the sun, which is characteristic of all red sports of Talisman.

**ROTARY LYON (Chambard 1936) \$1.00**

This fine rose, named for the Rotary Club and the city of its origin is quite different from any other rose we have. The long pointed buds open to large double roses of variable colors depending on weather conditions, but usually a creamy, orange yellow, often splashed with carmine. The plant is a vigorous upright grower with light green foliage.

**SENATEUR POTIE (Pedro Dot 1937) \$1.00**

We believe this rose has a place in your rose garden. The ovoid bud opens to a large semi-double flower of deep orange yellow. A continuous bloomer with thick leathery foliage. We have found it to be exceptionally disease resistant.

**SENORA GARI (P. Dot 1934) \$ .60**

The long pointed buds are a deep orange and open to a large double rose of the same color, changing to a buff-apricot, a new shade in roses. Attractive at all stages. The rose has substance and fragrance. Plant is a strong spreading grower with good foliage. Very floriferous, but with only moderately strong stems.

**SEQUOIA (Verschuren 1939) \$1.00**

The large ovoid buds of pumpkin yellow open to large double flowers of the same color, changing to burnt orange. The plant is a strong grower with glossy reddish green foliage.

**SHOT SILK****\$ .60**

A beautiful combination of orange rose overlaid with yellow and suffused with pink. Bush is a good grower with an abundance of glossy, dark green foliage. Will thrive in shade. A continuous bloomer with cup shaped, fragrant flowers.

**SOEUR THERESE (Guillot 1930)****\$ .60**

It has a long pointed bud of golden yellow often streaked with carmine, opening to a large semi-double flower. Foliage is medium size and leathery. A vigorous growing plant and free blooming. Fine.

**SOUTHPORT (McGredy 1934)****\$ .60**

Southport in most sections has proven satisfactory. The bud is long pointed, of a very vivid scarlet with a delightful sheen, the color fading but little in the open flower. About twenty petals. An exceptionally heavy bloomer. Plant is a strong, upright grower (4 ft.) with reddish green foliage. It does mildew slightly in some sections.

**SUSAN LOUISE (Adams 1929)****\$ .60**

This lovely rose has proven satisfactory wherever grown. A seedling of the Belle of Portugal, but a bush rose and a continuous prolific bloomer. Bud is long and slender and of a deeper shade of pink than its parent; stems are long and firm. Growth is extremely vigorous and practically thornless. No garden is complete without Susan Louise.

**TALISMAN (Montgomery 1929)****\$ .60**

The color is a mixture of red, yellow and copper in varying proportions. The bud is long pointed and opens to a medium size flower of the same colors. Extremely fragrant. An excellent cut flower. Growth is vigorous and upright. Mildews slightly.

**THE DOCTOR (Howard & Smith 1937)****\$1.00**

The Doctor is a fine addition to our small group of fine true pink roses. The buds are very long and pointed and open to very large double flowers of light pink. The plant is a medium grower, moderately fragrant. An excellent cut flower.

**TREASURE ISLAND (Raffel 1939)****\$ .75**

This rose has perfectly formed long pointed buds of coppery orange, somewhat similar to Countess Vandal, but more brilliant. Excellent as a cut flower. Plant is a medium grower, but like Countess Vandal does mildew in some localities.

**VESUVIUS****\$ .60**

Dark velvety crimson with yellow stamens. Excellent in a cool climate. Very vigorous grower and a continuous bloomer. Fragrant. Single.

**VILLE DE NANCY (Guillot 1940)****\$1.50**

Ville de Nancy has given us some very lovely bloom although they do fade in hot weather. The buds are long and tapering shaded from deep pink to silvery pink. The plant is a tall grower and is well clothed with good foliage. Quite double.

**VILLE DE PARIS****\$ .60**

An excellent flower in nearly all sections. A large double ovoid bud of sunflower yellow, slightly tinted orange; deeper shade in the center and at the base of petals. A vigorous upright grower with glossy reddish green foliage that is very free of disease.

## FLORIBUNDA ROSES

This new classification of roses included those that were formally listed as hybrid teas and hybrid polyanthas. They comprise the large flowering polyanthas and the low compact growing hybrid teas. They are selected for their hardiness and their continual blooming qualities. There is a definite place in the garden for these roses, such as mass plantings along driveways, walks, etc. Floribundas come in a wide range of colors and are fast becoming popular as they produce a mass color effect over a long period of time.

### **CECILE BRUNNER (Polyantha) \$ .60**

The sweetheart rose. Buds small, beautifully formed. Flowers light pink with yellow at the base of the petals. A continuous bloomer and fragrant.

### **DAINTY MAID (LeGrice 1940) \$1.00**

Dainty Maid, a single, has the appearance of a wild rose. It is about two inches in diameter and is produced in small clusters. Color is rose pink. Plant is a very strong grower and profuse bloomer.

### **GARTENDIREKTOR OTTO LINNE (Lambert 1934) \$ .60**

Distinctly different from other polyanthas. The plant sends up long new canes, 2 to 3 ft., blooming first in large clusters on top, then sending out side branches which bloom on down nearly to the ground. Color dark carmine pink. Foliage abundant, glossy and practically free of mildew.

### **ORANGE CECILE BRUNNER \$ .60**

This lovely little rose is the same as the pink Cecile Brunner except in color.

### **ORANGE TRIUMPH (Kordes 1937) \$ .60**

This is one of the finest polyantha roses we have seen. The salmon red blooms with orange shadings come in large clusters and are produced profusely throughout the season. The glossy green foliage is practically free of disease.

### **PINK GRUSS AN AACHEN \$ .60**

A very double salmon pink floribunda. Flowers about three inches in diameter; slightly fragrant. Blooms all season. Plant is low and bushy with fine disease resistant foliage.

### **ROSENELFE (Kordes 1937) \$ .60**

Rosenelfe is a new large flowering polyantha of deep pink with fine form. Excellent as a boutonniere rose. A vigorous upright grower and profuse bloomer.

### **SNOWBIRD (Marion Hatton 1935) \$ .75**

Of all the lovely little white roses, we think Snowbird is the best. The buds are beautifully formed, sweetly fragrant, creamy white in bud, opening to pure white. The open flower, which is three inches in diameter, is very double and attractive, resembling a gardenia. Flowers are borne singly or as many as four on a stem. A compact, clean disease resistant plant; very floriferous. The best white floribunda to my knowledge.

### **SUNSHINE \$ .60**

A very lovely dwarf polyantha (1½ ft.) that is at its best in a cool climate. Flowers are small, double, of a golden orange, borne in clusters. Sunshine is a continuous bloomer, with foliage free from mildew. Moderately fragrant.

### **WORLD'S FAIR (Kordes 1938)**

See description under patented roses, page 10.

# CLIMBERS

## **CLG. CECILE BRUNNER (Pink) \$ .60**

A very rampant grower. Flowers same as the bush.

## **CLG. CECILE BRUNNER (Yellow) \$ .60**

A very strong grower. Foliage light green and flowers a deep orange yellow.

## **COUNTESS OF STRADBROKE \$ .75**

This Australian rose appears to be one of the finest red climbers introduced in years. Observed over the entire Pacific Coast for the past few years, it has fulfilled all expectations. The new foliage is a reddish brown turning to dark green as it ages. Flowers are large, double, of good form and a dark velvety crimson; very fragrant.

## **CLG. DAINTY BESS (California Roses Inc. 1935) \$ .60**

The most popular of all single roses is now available as a climber. A strong, clean growing, ever blooming climber. The flowers are the same as on the bush. One of our best climbers.

## **CLG. DUCHESS OF ATHOLL \$ .60**

A climbing sport of the well known bush variety. A strong climber with glossy disease resistant foliage. Blooms globular and of a deep bronzy color. An intermittent bloomer.

## **DR. JOHN GALLWEY (Victor Reiter Sr. 1937) \$ .75**

This new rose originated by Victor Reiter Sr. is a very strong climber with perfect disease resistant foliage. The pure white single flowers are about two inches in diameter and are produced in large clusters. The entire plant is a mass of beautiful snow white flowers in the spring.

## **EDNAH THOMAS \$ .75**

This rose is one of the best pink climbers. The large, double, fragrant flowers are carmine pink with orange at the base of the petals. Stems are strong, a good cut flower. Ednah Thomas is a continuous bloomer, with large dark green disease resistant foliage. A vigorous climber.

## **CLG. ETOILE DE HOLLAND \$ .75**

A climbing sport of our best red rose. Bloom and foliage same as the bush. One of the best red climbers, if not the best.

## **FEU D'ARTIFICE \$ .75**

A new climber similar in growth to Paul's Scarlet, with large glossy foliage. Buds are long, pointed and of nasturtium red, opening to a semi-double flower of yellow and nasturtium red. Slightly fragrant. Has long blooming period.

## **FLASH**

Listed under patented roses, page 11.

## **CLG. GOLDEN EMBLEM \$ .60**

The same lovely flower and foliage as the bush type. A very strong grower, free bloomer in spring.

## **GUINEE (C. Mallerin 1938)**

**\$1.00**

Offspring of dark red roses, Souv. de Claudius Denoyel and Ami Quinard. This semi-double pillar rose is a deep maroon and sweetly scented. A really fine rose. Intermittent bloomer with glossy foliage that is fairly free of disease.

## **HARMONY**

**\$ .75**

A pillar rose that is really a beauty. The double blooms are of perfect form, with a high center, and outer petals are reflexed. Harmony is a silver pink with considerable salmon suffusion near the base of the petals. Stems of medium length and very firm; bush a sturdy grower with heavy thick foliage quite free of disease. A continuous blooming, fragrant rose of exceptional substance.

## **CLG. HINRICH GAEDE**

Listed under patented roses, page 11.

## **CLG. INDIAN SUMMER**

Listed under patented roses, page 11.

## **KITTY KININMONTH**

**\$ .60**

An Australian Climber you should get acquainted with. Very large, ruffled semi-double blooms of brilliant fadeless pink. Strong grower; continuous bloomer.

## **CLG. LADY FORTEVIOT**

**\$ .60**

A climbing sport of the well known bush rose. Highly recommended for coastal sections. Description under bush roses.

## **LAMARQUE**

**\$ .75**

One of our oldest and best known white climbers. It is still one of the best in its color. Lamarque has large very double white blooms, is a continuous bloomer, a strong grower and will stand neglect. Very fragrant.

## **CLG. LOUISE C. BRESLAU**

**\$ .75**

The coral apricot blooms are even larger than the bush type. A moderate grower with thick leathery foliage, which is disease resistant. A continuous bloomer.

## **MERMAID**

**\$ .75**

One of the most popular climbers. Immense sulphur yellow single flowers with amber stamens. Buds come in huge clusters (often over 40), but it is seldom that over two or three in a cluster come out at once. Blooms throughout the season. Foliage is a deep shiny green; disease resistant. Does not require pruning. Excellent as a ground cover.

## **CLG. MME. BUTTERFLY**

**\$ .60**

This is one of the best salmon pink climbers. A strong climber, intermittent bloomer with excellent leathery foliage. Buds are long, pointed and excellent for cut flowers. Fragrant.

## **MME. STAEHELIN (Spanish Beauty)**

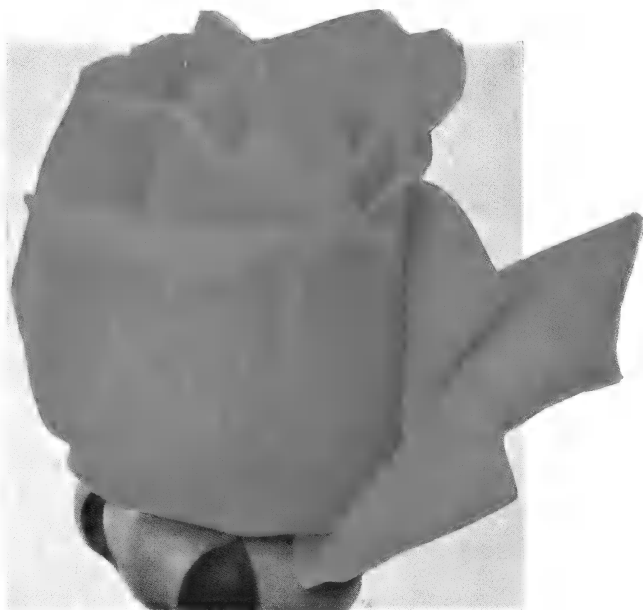

**\$ .60**

A beautiful rose from Spain with long crimson buds that open to large flowers of delicate pink with curled petals stained on the outside with crimson. A vigorous grower. Short blooming period, 6 weeks.

## **CLG. MRS. E. P. THOM**

**\$ .60**

One of our best yellow climbers. A climbing sport of the bush variety. A vigorous grower and continuous bloomer.

CLG. ★MRS. SAM McGREDY (Patent No. 394)

### **CLG. MRS. PIERRE S. DuPONT**

**\$1.00**

We unhesitatingly acclaim this as one of the finest golden yellow climbers. A continuous bloomer; foliage excellent. See description under bush roses.

### **CLG. MRS. PAUL J. HOWARD**

Listed under patented roses, page 11.

### **CLG. MRS. SAM McGREDY**

Listed under patented roses, page 11.

### **PAUL'S SCARLET**

**\$ .60**

A most spectacular rose in the spring. Entire bush is a mass of medium size, intense, vivid scarlet blooms, often producing a scattering of summer blooms.

### **CLG. PRESIDENT HOOVER**

**\$ .60**

Extremely vigorous climbing sport, popular bush type. Flowers, foliage same

### **REVEIL DIJONNAIS (E. M. Buatois 1931)**

**\$ .60**

A most spectacular color in this beautiful climbing rose. Buds are a golden yellow striped carmine, opening to a semi-double flower five inches across of pleasing shade of red with a large golden yellow center. It usually blooms in clusters of from three to five. Foliage thick, glossy, bronze green. A vigorous climber with a heavy spring bloom, followed by a scattering bloom throughout the rest of the season.

### **ROSE ANNE (Geo. C. Thomas, Jr., 1938)**

**\$1.00**

Another excellent pillar rose, blooming continuously. The semi-double blooms come in small clusters on long stems and are a soft orange shade. Foliage is abundant and exceptionally free of disease.

## **RUTH ALEXANDER**

Listed under patented roses, page 11.

### **CLG. ROSE MARIE** **\$ .60**

A climbing sport of that old favorite bush rose, Rose Marie. Buds are large globular, moderately fragrant and a clear rose pink. Fine stems and foliage.

### **CLG. SHOT SILK** **\$ .60**

Another fine climber. A sport of the well known bush variety that is satisfactory in all localities. Flowers slightly larger than the bush type and of the same orange-rose color suffused with pink. Glossy foliage.

### **SOLEIL D'ORIENT** **\$ .75**

The buds are long pointed opening to a very large double rose of Indian red shaded yellow. Very prolific in spring bloom only.

### **SOUV. DE CLAUDIUS DENOYEL** **\$ .60**

Splendid as a pillar rose. The long pointed velvety rose buds open to large blooms of rich crimson scarlet, which are very fragrant. Blooms intermittently all season. Disease resistant foliage.

### **CLG. SOUV. DE MME. BOULLETT** **\$ .60**

An old favorite. Long pointed buds of dark cadmium yellow. One of the best yellow climbers. A free spring bloomer, spreading grower, and quite free of disease.

### **SOUV. DE MME. JULES PAGES (Victor Reiter, Sr., 1937)** **\$ .60**

This is an outstanding polyantha climber with exceptionally clean foliage. Blooms are about the size of Cecile Brunner, but of a deep pink color with orange and red shadings. Blooms in clusters intermittently throughout the season. Foliage a dark glossy green; growth from six to ten feet.

### **SUNGOLD (Geo. C. Thomas, Jr., 1939)** **\$1.00**

This is one of the finest yellow climbers we have seen in many a day. The buds are long, pointed and a clear golden yellow. As a rule, the buds come singly on long strong stems and are freely produced throughout the season. The plant is a strong climber with clean glossy foliage. In the two years we have grown it, it has been absolutely free of disease.

### **CLG. TALISMAN** **\$ .60**

A very vigorous climbing sport of the bush variety. Very floriferous.

### **CLG. QUEEN ALEXANDRA** **\$ .60**

The first to bloom in the spring and the last in the fall. An ovoid bud that opens to a large double, fragrant rose of intense vermillion shade old gold with an orange base. Bush is a moderate grower with glossy foliage. Not recommended for cutting.

#### **PLEASE NOTE!**

**We have a limited number of the old-fashioned roses and shall be glad to send a list of varieties to anyone interested.**

## HALF STANDARD ROSES

This year we have a limited stock of these short standard roses budded at 24 inches. This type of standard which is budded on Odorata root, is very effective and desirable in that the bloom is just below shoulder height ordinarily, producing an excellent display.

**Prices: \$1.50 each unless otherwise marked. 10% discount on 5 to 24, 20% discount on 25 or more.**

<b>CHARLOTTE ARMSTRONG—red to cerise</b>	<b>\$1.75</b>
<b>CRIMSON GLORY—velvety scarlet</b>	<b>\$1.75</b>
<b>CHRISTOPHER STONE—vivid scarlet.</b>	
<b>DUCHESS OF PENARANDA—coppery-apricot.</b>	
<b>ETOILE DE HOLLAND—dark velvety red.</b>	
<b>J. OTTO THILOW—rose-pink.</b>	
<b>McGREDY'S SUNSET—yellow-orange-scarlet</b>	<b>\$1.75</b>
<b>MME. HENRI GUILLOT—orange-coral-red</b>	<b>\$1.75</b>
<b>MRS. PIERRE S. DU PONT—deep golden yellow.</b>	
<b>ORANGE TRIUMPH—salmon red with orange.</b>	
<b>PICTURE—rose-pink-salmon.</b>	
<b>SNOWBIRD—creamy white to white.</b>	

## STANDARD OR TREE ROSES

The standard roses this year are excellent quality as in former years. All varieties are budded on I. X. L. stock which has proven to produce more bloom over a longer period of time than any other stock we know of.

Standard roses are most effective when planted along walks, driveways and to add height to the rose garden. Blooms produced on standards are superior to those grown on low bushes. Some varieties are better adapted to tree form than others and with this in mind the following varieties were budded at the usual height of 40 inches.

**Prices: \$2.25 each unless otherwise noted. 10% discount on 5 or more. This price does not include express charges.**

<b>ANGELS MATEU—old rose and orange</b>	<b>\$2.50</b>
<b>CHARLOTTE ARMSTRONG—red to cerise</b>	<b>\$2.50</b>
<b>CHRISTOPHER STONE—vivid scarlet.</b>	
<b>CRIMSON GLORY—velvety crimson</b>	<b>\$2.50</b>
<b>DAINTY BESS—soft rose pink.</b>	
<b>DUCHESS OF PENARANDA—coppery-apricot.</b>	
<b>ETOILE DE HOLLAND—dark velvety red.</b>	
<b>HINRICH GAEDE—orange-red.</b>	
<b>J. OTTO THILOW—rose-pink.</b>	
<b>LADY FORTEVIOT—yellow-apricot.</b>	
<b>McGREDY'S SUNSET—yellow-orange-scarlet</b>	<b>\$2.50</b>
<b>MME. CHAS. MALLERIN—orange-salmon</b>	<b>\$2.50</b>

TREE ROSE

<b>MME. HENRI GUILLOT</b> —orange-coral-red	<b>\$2.50</b>
<b>MRS. EDWARD LAXTON</b> —orange and old rose.	
<b>MRS. E. P. THOM</b> —canary yellow.	
<b>MRS. PIERRE S. DU PONT</b> —deep golden yellow.	
<b>MRS. SAM McGREDY</b> —coppery-salmon.	
<b>ORANGE TRIUMPH</b> —salmon-red with orange.

<b>SATURNIA</b> —red and copper	<b>\$2.50</b>
<b>SNOWBIRD</b> —creamy white to white.	
<b>THE CHIEF</b> —coral-flame	<b>\$2.50</b>
<b>TREASURE ISLAND</b> —coppery-orange.	

## *Cultural Hints*

**R**OSES are usually hungry and thirsty. One of our most common mistakes is not giving them sufficient water. Keep the ground moist. Water thoroughly each time. Frequency of watering depends on your soil, usually from one- to three-week intervals. Water in morning only.

In the early spring, mulch rose beds with either cow manure, peat moss or lawn clippings. Cow manure is excellent if clean, but foul weeds and insect pests may be brought into the garden through it. Feed each plant a half tea-cup of a well balanced commercial fertilizer ever two months during the growing season.

If you do not use a mulch, cultivate the ground lightly after each watering; just enough to break the crust. Deep cultivating cuts the feeding rootlets.

Keep the roses well watered in summer. Allowing them to dry and go dormant causes the bushes to defoliate and sunburn.

Ground canes are the best wood on a rose bush. They are the soft new canes coming from around the bud union, with foliage and thorns identical to the older growth. Suckers come from below the bud union and have entirely different foliage, thorns and color. Suckers should be cut out as soon as identified.

Pruning is very important and should be done during the dormant period. Leave new wood, cutting out as much of the old wood as is possible to still retain the form of the plant. Cut new wood back about half way and to an outside eye. However, you must prune according to the individual plant as no set rule applies to all. It is advisable to prune soft wooded varieties with a sharp pruning knife. Paint all cuts of any size with "Tree Heal."

## **GROWING ROSES**

We are endeavoring to give our patrons the choicest varieties in roses and to produce the best possible plants. By so doing we feel that growing roses will be a joy to our patrons as well as a great satisfaction to us. Each year we drop some varieties to stock some of the new roses which we feel will be an improvement over the old ones. We have tried to give you the faults as well as the good points as we have observed them in the field. All varieties are budded on Odorata root. This root stock will do well in nearly all sections of the United States.

## **ROSE SHIPMENT**

Roses shipped by Parcel Post or Express should reach the purchaser in perfect condition no matter how far shipped. On opening package, if roots should be found to be dry, soak in water twenty-four hours, or bury entire plant in wet soil for two or three days. Do not expose roots to sun or wind when planting. Any bruised or broken roots should be cut off.

## **DRAINAGE**

Roses require good drainage. If soil has poor drainage use several inches of coarse sand or gravel below where the rose is to be planted. Should the entire garden have poor drainage, tile drainage should be used.

## **SOIL**

Roses prefer a fairly heavy slightly acid soil, although they will grow in almost any well drained ground. They will not grow well in a soil where there is an excess of either acid or alkaline. As most of our soil in California is more or less alkaline, it is quite necessary to use some substance to acidify the soil. Sulphur at the rate of  $\frac{1}{2}$  lb. per sq. yd. twice a year is very beneficial.

## **PLANTING**

Several weeks in advance of receiving the plants, it is advisable to spade your beds at least 18 inches deep if you wish the best results. Incorporate in this soil, alfalfa leaves, bean straw, well rotted manure or some other desirable material for humus. At planting time make a cone shaped mound in the center of the hole and place the crown of the roots on the apex of the mound. Spread roots to cover as much surface as possible. Fill just above the roots with surface soil and tramp down firmly. Fill hole with water two or three times so as to close up any air pockets that there might be. After the water has settled, the hole may be filled up level. Be sure to have bud union level with the surface or slightly above the ground. Plants have been moderately pruned ready for planting.

## **PEST CONTROL**

Roses, like all other plants, have pests and diseases which may be controlled with a little effort. The most common of the diseases are mildew, rust, and in some sections, blackspot. In a warm climate dusting lightly once a week with a mixture of nine parts of dusting sulphur to one part of arsenate of lead will control these diseases.

In a cool climate excellent results have been obtained by spraying every 10 days with one bottle cap of Greenol and 1 tablespoon of summer oil per gallon of water. Whether you dust or spray, do its consistently every week or ten days during the growing season. The pyrethrum or rotenone sprays may be added to the Greenol summer oil combination for control of aphids or may be used separately as desired.

## **WINTER SPRAYS**

A clean-up spray after pruning consisting of 10 tablespoons of either Bordeaux or Lime Sulphur to one gallon of water is very effective to clean up the mildew and rust spores. Old leaves should be picked up and burned.

## **CUTTING ROSES**

When cutting roses, leave three or four buds (above each leaf is a bud) of the new wood. Cut to an outside bud so as to keep the plant open which will help to prevent mildew and rust.

Cut roses either late in the evening or early morning. Split or mash stems and plunge immediately in deep water up to the neck. Allow to stand for several hours to absorb water. Single roses should be cut in tight bud when color is just beginning to show between opening sepals; double roses as they start to unfurl.
